

Suggested Transportation from Chicago Airports

Here is a list of recommended cab and limousine services from either O'Hare or Midway airports. These companies charge a flat rate for Evanston, while the cabs that line up at the "cab curb" are often unfamiliar with our location and will be more expensive.

The procedure for the services listed below is to call after luggage has been retrieved. The service will provide a car/cab number and a location to meet. Approximate travel time from O'Hare is 1 1/4 hours. The approximate travel time from Midway is 1 1/2 hours.

All of the following companies accept credit cards. Rates may vary nominally with additional passengers and/or tolls.
